

DIARY NOTES

DD/S 

24 April 1962

1. I obtained General Carter's signature on John Bross' paper requesting permission to withdraw additional funds for [REDACTED] from the reserve and have arranged for [REDACTED] to accompany Messrs. Bross and [REDACTED] to the Bureau of the Budget on Thursday, 26 April.

2. [REDACTED] was in to say hello. He and [REDACTED] seemed to think that the [REDACTED] should be merged. He also advised me of some plan afoot to have the [REDACTED] raise the stock levels in order to facilitate and expedite the issue to us of certain supplies.

3. Matt Baird telephoned to say that he had had a recent security violation and that he always had said to his people that he would forfeit one day's pay if he had a violation. I told him that I was not in favor of this but that he should report his security violation to me and that I would respond to his memorandum.

4. I returned the Fitness Report for [REDACTED] to Matt Baird to be rewritten. I told Matt that the information contained in this report to the effect that Bill had been selected as the Chief of Station, [REDACTED] was not correct. Matt said that he had been so advised by both [REDACTED]

5. I telephoned [REDACTED] to make an appointment for Miss [REDACTED] to see them. [REDACTED] said that Francis Gary Powers had been in to see them and that he wanted to talk to me about it before it went any further. (On 25 April I talked further with [REDACTED] about Francis Powers. He said that they would be glad to represent Mr. Powers in any of his business transactions if we wanted them to; however, they do not and will not handle a domestic relations case. Accordingly, they would like Mr. Powers and us to understand that, if they are to represent him in any way, they will not be pulled in on any domestic relations problems. All in all, this is a case which they would just as soon not have but will not turn it down. [REDACTED] has also advised [REDACTED] of the Office of General Counsel of the above.)
